

**DIVERSIFIED  
PLASTICS, INC.**

# DIVERSIFIED PLASTICS IS YOUR INNOVATIVE SOURCE

## For Essential Water Treatment Solutions

**Over the past decade, Diversified Plastics has become a leading provider of non-metallic sprockets and other plastic components to the water treatment industry.** But, we're a lot more than pieces and parts. We have proven design and engineering to support the innovation required to keep a critical part of our nation's infrastructure constantly improving.

# Revolutionizing Water Treatment

with Extended Life Plastic Components

Many water treatment facilities are making the move away from metal and toward plastic components. For instance, our proprietary MultiFab non-metallic sprockets have revolutionized the water industry by combining different materials to lower cost, reduce weight, and extend sprocket life.

## Your Team At Diversified Plastics Is Ready To Assist You With:

- Prototyping key parts for your applications
- Component design for critical manufacturability
- Specific and best material selection per application
- Process selection and optimization
- Quality assurance testing for total customer satisfaction

## Diversified Plastics Is Your Source For Plastic Molded Parts And A Whole Lot More

Aside from a broad selection of MultiFab non-metallic Sprockets, count on Diversified Plastics for these engineered components:

### Bar Screen Conversion Parts

- Sprockets
- Chains
- Rakes
- UHMW Scrapers

### Grit Collector Conversion Parts

- Sprockets
- Grit Collector Buckets
- Return Rail Wearstrips
- Chains
- Drag Flights
- Carry Rail Wearstrips

### Rectangular Sludge Collectors

- Drive Chains
- Shear Pin Assemblies
- Drive Sprockets
- Non-metallic Return Rail Components
- Collector Chains
- Wearstrips
- Flight components

**Diversified Plastics is your essential source for critical water treatment components and high value performance. We put polymers to work for you in ways you may not have thought possible.**

**Manufactured in the USA**
