Innovation is on the move.

PLASTIC IS OUR ADVENTURE

We are creative,
engineering-minded
problem solvers.
And it shows.

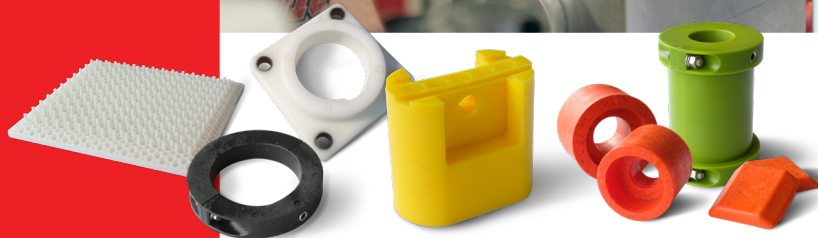

Diversified Plastics is a growing manufacturer of industrial plastic products located in Missoula, Montana. Our company is privately held and has been designing, fabricating, and molding plastic parts since 1976.

We are innovators. The wide range of industries that rely on our innovation includes agriculture, food processing, lumber mills, mining, and water treatment. Our plastic components are found throughout the USA and abroad.

“

DPI creates opportunities for professional growth in an exciting and growing industry. My team challenges and inspires me.

”

CORE VALUES

PRIDE. PARTNERSHIP. PURPOSE.

We strive to be the company people want to work for – **and do business with.**

Work and live in beautiful Missoula, Montana

Diversified Plastics is fortunate to have our business located in one of the most livable small cities in the United States. Missoula is known for its connected community, incredible outdoor recreation, and healthy living.

Outdoor activities are abundant. Hiking, water sports, fishing, mountain biking, snow skiing, kayaking, and hunting are just a few of the outdoor experiences readily available. Missoula is also home to the University of Montana.

PLASTIC IS OUR ADVENTURE

DISCOVER

DPI'S COMMITMENT TO MISSOULA

Montana Manufacturer of the Year Award

We have been honored to receive this award which is sponsored by the Montana Department of Commerce and the Montana Manufacturing Association (MMA). The award recognizes leaders in innovation, growth, good corporate citizenship, and environmental excellence as well as the company's commitment to excellence, dedication to employees, and community investment.

Supporting Our Community

Believing individuals and groups can make a significant impact, we are proud to partner with our employees, customers, and distributors in Missoula and all around the world to better our community.

Green Commitment

Our commitment begins with in-house recycling. Each year, we divert nearly a quarter million pounds of post-industrial bulk scrap plastics as well as some post-consumer scrap plastic from landfills. We use reclaimed materials: all resins, sheet stock, and components whenever possible.

DPI has some of the most advanced manufacturing capabilities in the area, **making it a fantastic place for career growth.**
