A LEGACY IN LUMBER

PLASTICS INNOVATORS

With the mountain ranges and forests surrounding Missoula to inspire us, our company began producing plastic wear strips for lumber and pulp mills in the area.

ROOTED IN LUMBER

Launched in a garage by Rod Reid in 1976, we have grown to be a North American leader in plastics design, engineering, and manufacturing – doing whatever it takes to achieve more with plastic

Diversified Plastics, Inc. is now led by Brad Reid, a mechanical engineer, and a team of more than 75 experienced, knowledgeable, and creative plastics professionals.

of parts and
components on the
following pages.**

Contact us to
discuss how we
can help solve your
unique challenges
with in-house
design engineering
and prototyping.

A VISIT TO **YOUR SITE**

Let's arrange a meeting
at your facility for a full
evaluation, at no cost to you.

With an assessment of your
processes, materials, designs,
and parts, we can offer
plastics solutions to help.

CLEAR CUT ADVANTAGES

Why engineered plastics components are a growing favorite in forestry

The benefits of using plastic parts and components in forest and lumber industry equipment are endless.

Specify DPI plastic parts and components and see advantages like greater durability, corrosion resistance, reduced friction, wear-resistance, lower noise levels, and longer service life.

We have the plastic solution for all your essential equipment.

Debarkers

Trimmers

Graders

Dry Kilns

Planers

Stackers

Sawmill Infeed

Bin Sorters

CONCEPT TO CREATION

From first ideas to finished products, we are your most comprehensive plastic parts manufacturer.

- Single source for plastic parts engineering, tooling, and production
- Multiple manufacturing processes to meet any need
- Capabilities for custom orders, short runs, or high quantities
